

The *Barry Kilby* Prostate Cancer Appeal (BKPCA)

BKPCA aims to fund PSA Testing Events at Football and other Sports Grounds around the country to help men survive longer

Did you know?

- 1 in 8 men in the UK are at risk of being diagnosed with the disease
- There are no known ways to prevent Prostate Cancer
- **40%** of Prostate Cancer cases are diagnosed at a late stage
- In the UK, every **45** minutes one man dies from Prostate Cancer as a direct consequence of a *lack of effective screening and awareness*
- There are still, on average, **12,000 deaths** caused by Prostate Cancer every year
- **Monitoring** PSA levels may not prevent Prostate Cancer, but **it can detect the illness before it is too late!**

UK Prostate Cancer mortality is far higher than other western developed countries as a direct consequence of our lack of awareness and lack of effective screening – over half of the new cases still present in the UK with advanced, incurable cancer with over 47,000 new cases and about 12,000 deaths each year. That's about 130 new cases per day!

So far we have:

- Held **9** PSA Blood Testing Days
- Had **2,947** men tested
- Identified **275** men as 'at risk' of **Prostate Cancer**
- Detected **53** cancers and saved men's lives!

Ready to Help? – turn over...

DETECT EARLY.

THE BARRY KILBY
PROSTATE CANCER
APPEAL

SURVIVE LONGER.
